

Quogue Wildlife Refuge

Southampton Township Wildfowl Association

Internship Description

This is an unpaid Intern Position for 10-20 hours per week (hours can vary), for a College Student studying Environmental, Educational or Animal related sciences. Responsibilities can include assisting with and providing care to a variety of animals including native New York mammals and birds of prey that are permanent residents at the Refuge due to injuries, as well as a variety of non-native reptiles that reside in the Nature Center; assist with and possibly teach nature related programs to school/scout/private/summer camp groups; educational exhibit design; assisting with general maintenance of trails, cages, tanks, and Nature Center; possible weekend staffing of the Nature Center. Great opportunity to learn about the various habitats of Long Island including the Pine Barrens, freshwater ponds, bogs, saltwater marsh and the native flora & fauna found in each Long Island habitat. Also an opportunity to gain an understanding of how a non-profit organization operates.

The Quogue Wildlife Refuge is a 305 acre non-profit nature preserve that was established in 1934.
